### 6. Health and Safety – Alcohol

In a social environment the consumption of alcohol in moderation is an accepted part of life. In the workplace however it can impair performance, result in inappropriate behaviour, and can place both the individual and those around them in danger, as well as affect health.

## • Drug and Alcohol Policy for Learners

---

It is FW Solutions Ltd's policy that Alcohol must not be consumed in any situation where as a consequence the safety of the individual, colleagues or children are put at risk.

- Learners are not obliged to work with anyone they consider to be incapable through the consumption of alcohol and should immediately report the matter to their employer and/or Teaching and Learning Co-ordinator (TLC).
- Learners who are incapable of working through the consumption of alcohol should be immediately removed from duty and the matter reported to their manager who will notify the TLC of the incident.

### 7. Health and Safety - Drugs

Controlled substances often possess side effects that could not only adversely affect learner's health but also their performance. Learners should be aware that anyone under the influence of drugs, whether controlled or prescription, is a risk to everyone around them and should be alert to possible signs of drugs abuse.

Learners should report any concerns they may have about a colleague displaying any symptoms to their manager and/or TLC but should not under any circumstances approach the person displaying the symptoms or discuss their concerns with any other colleagues.

This Policy only refers to controlled or illegal substance drugs and does not refer to medicines, supplements and similar substances that are legally and commercially available in the United Kingdom.

### 8. Procedures

- In the event that a learner is diagnosed with a drug/alcohol related problem, FW Solutions will treat it as a health matter. However, this does not excuse the learner from any of the disciplinary matters that may fall within the scope of the disciplinary policy of either FW Solutions Ltd or the learner's Employer.
- All drug/alcohol related issues will be dealt with in a constructive and sympathetic manner. The individual responsible for all such issues is firstly the Manager of the employer/setting but also Rebecca Warden Business Development Director for FW Solutions Ltd as the training provider for the learner. FW Solutions Ltd will also provide any interested learners, in confidence, with details of where to seek more information or help.

### 9. Mitigation and Peer Support

In the event that a learner contacts FW Solutions or their Employer of their own free will in order to receive support or treatment for dependency on any form of alcohol or narcotics this will be taken into account.

### 10. Toxic Trio

**In addition to the above the environment the learner is living in must also be considered.**

The term 'Toxic Trio' has been used to describe the issues of domestic abuse, mental ill-health and substance misuse (including alcohol) which have been identified as common features of families where harm to children (which includes learners 16-18 years old) and adults has occurred.

The Toxic Trio are indicators of increased risk of harm to families and are significant factors in IPV (Interpersonal Violence) and AFV (Adult Family Violence). Work in this area has shown that there is large overlap between these parental risk factors and impact on outcomes for children into adulthood through the research into Adverse Childhood Experiences (ACE). Research shows that the environment in which a person lives is crucial to that person's welfare, development and behaviour.

Consequently, the following fundamental principles remain the same:

- the best interests of learners continue to come first.
- if anyone in our organisation has a safeguarding concern, they will act immediately.
- a designated safeguarding lead (DSL) or deputy DSL will always be available.
